

THE GLOBAL TYRE & WHEEL AUTHORITY

techeurope.co.uk

TECH Exceeds Standards
and Expectations

OUR EXPERTISE

Because our customers deliver the best in their industries, they expect the best from us. With products for heavy truck, off-the-road, agriculture, passenger and light truck, we have the high-quality tyre and wheel repair products the experts trust.

Proud to Work With:

OUR HISTORY

For nearly eight decades, we've manufactured rubber and industrial material solutions, solidified under our family-owned values. Our founder, Charles Cornell, with the invention of the cold vulcanisation process, revolutionised the tyre repair industry and built the foundation to grow a global organisation through four generations of family ownership and leadership.

OUR VISION

Supporting the entire lifecycle of rubber, our vision is to create and extract value from materials that were formerly considered to be at the end of their useful life.

- Repair
- Reuse
- Recycle
- Repurpose

OUR PROMISE

By empowering our customer partnerships with a complete range of proven tyre and wheel service solutions, we have become the tyre and wheel authority that's trusted by top technicians across the globe. Tech products have repaired billions of tyres, with every repair guaranteed for the life of the tyre.

THE WORK WE DO

We are one of two companies that has been awarded the United States Presidential E-Star Award twice. We have also been recognised for the EY Entrepreneur of the Year Award; we won this award in 1993 and were a finalist in 2017.

OUR REACH

Global Manufacturing, Testing and Distribution

In addition to being ISO certified, our products meet the requirements of BS AU 159 and ECE 108/109. With global manufacturing and distribution in 96 countries, Tech is the worldwide pioneer in tyre and wheel service solutions.
