Complete TPMS Range

Universal Sensors

The NFC-Enabled Universal Sensor

What Sets this Sensor Apart?

Users can configure and program this sensor with their smartphones.

This solution is perfect for DIYers, wheel assemblers and companies looking to capitalise on TPMS business opportunities.

What is NFC?

NFC is a short-range wireless technology that allows compatible devices to communicate. Its most common use on a smartphone is making quick and easy payments with Apple Pay or Google Pay.

NFC Benefits & App Features

Superfast Configuration

The app configures Hybrid NFC sensors in a tap, outperforming TPMS tools.*

Two Ways to Configure

Create a new ID and use any TPMS tool to relearn a vehicle. Alternatively, manually enter an existing OE sensor ID and skip the relearn process altogether.

No Potential for Error

Users can rest assured they have configured the correct sensor thanks to the short-range transmission of NFC.

Free to Download & Update

Say goodbye to subscription fees and manual updates. The app updates itself, so users do not have to! ** As a result, the latest vehicle coverage will always be at one's fingertips.

Silver Clamp-In: [72-21-953](#)

Black Clamp-In: [72-21-955](#)

Snap-In: [72-21-954](#)

Graphite Clamp-In: [72-21-956](#)

Besides NFC, the T-Pro Hybrid NFC includes the same features as the Hybrid 3.5 (on page 3).

*Available for NFC-enabled Android phones and the iPhone 7 or newer with a minimum of iOS 15.
**Mobile data or a Wi-Fi connection is required.

TPMS SENSORS

- **Configurable:** configure in 1-3 seconds, as protocols covering a high percentage of vehicles are stored on the sensor
- **Programmable:** add new protocols as they become available, future-proofing stock
- **Multi-Protocol** (pre-programmed): install on most BMW and Mercedes vehicles without programming
- Compatible with leading TPMS tools, including those manufactured by ATEQ
- LOS, WAL, PAL, SAL and WASP auto-location technologies
- Designed for an optimal fit with OE and aftermarket wheels
- Powerful Maxell battery and the latest NXP chip
- 3-year sensor warranty*

The 3-in-1 Universal Sensor

The T-Pro family of sensors have four valve stem options: the most popular aftermarket Snap-In and three Clamp-In valves designed to complement the alloy wheel finish.

Clamp-In valves are anodized, and all valve cores have nickel plating to strengthen the corrosion resistance. The Clamp-In nut can be removed/attached over the cap to accelerate sensor installation and includes an anti-scratch washer to protect the wheel surface when tightening.

OE Replacement Sensors

- Cost-effective solution to replace Original Equipment (OE) sensors
- No programming required - fully functional following a TPMS relearn procedure
- LOS, WAL, PAL, SAL and WASP auto-location technologies
- Designed for an optimal fit with OE and aftermarket wheels
- Powerful Maxell battery and the latest NXP chip
- 3-year sensor warranty*

Valve Types:

- Silver Clamp-In
- Snap-In
- Black Clamp-In
- Graphite Clamp-In

TESLA BLE SENSOR

The T-Pro Hybrid BLE is a direct replacement for the Sysgration BLE (Bluetooth Low Energy) sensor used by Tesla vehicles. This aftermarket solution also employs BLE to alert the ECU when tire pressure drops and is pre-programmed, enabling technicians to skip the programming step.

Coverage:

- Tesla Model 3 (Oct 2020+)
- Tesla Model S (Jun 2021+)
- Tesla Model X (Oct 2021+)
- Tesla Model Y (Oct 2020+)

Tool Kit

The tool kit and carry case is an essential piece of equipment for garages, as it contains all the tools required to service valves successfully.

- The tool range is compatible with every valve in the market
- Overcome varying torque settings among valves and service kits by having the correct tool to hand, reducing the risk of damage

Contents:

- Calibrated torque tool, including:
 - o 7mm, 11mm and 12mm hex sockets
 - o 10, 15 and 20 Torx bits
- [Valve core torque tool](#)
- [Grommet removal tool](#)
- [T6 Torx screwdriver](#)

P/N: [72-20-711](#)

Starter Kit Pro

The Starter Kit Pro contains a selection of the most popular replacement parts, which cover 99% of European direct TPMS-enabled vehicles.

With 52 valves and 12 service kits (for OE and aftermarket sensors), the Starter Kit Pro alleviates the worry of not having the correct replacement parts to hand.

For extra convenience, the contents are available in individual boxes of 10.

Diagnostic Tools

Standard Features

- Read and activate 100% of OE and aftermarket sensors
- Manually enter IDs and copy a set of wheels
- Retrieve IDs from the ECU*
- Unlock the ECU*
- Manual relearn procedures
- ATEQ's Live Sensor platform (updates sensor information in real-time)
- ATEQ's Sync-ID technology (increases OBDII relearn coverage to over 90%)*
- Remote Key Entry (RKE) test
- A sensor part number directory
- Easy-to-use icon-driven navigation and a comprehensive language selector

Hamaton and ATEQ Diagnostic Tools | The Differences

	Hamaton	ATEQ
Configure/Program	EU-Pro Hybrid and T-Pro Hybrid Sensors	All Popular Universal Sensors
Multi-programming	EU-Pro Hybrid and T-Pro Hybrid Sensors	All Popular Universal Sensors
Free Software Subscription	5 Years	1 Year (VT37 & VT67) 3 Years (VT57)
Warranty	2 Years	1 Year (VT37 & VT57) 2 Years (VT67)

The Hamaton H57** and Hybrid HT can be upgraded to configure/program other universal sensors. See page 9 for more information.

**If users upgrade the sensor coverage, the subscription period will revert to the remaining time offered with the equivalent ATEQ tool. *Excludes the ATEQ VT37.

Additional Features Per Diagnostic Tool

ATEQ VT67

- 8" colour touchscreen
- Bluetooth ready
- Update via Wi-Fi
- Customer management
 - Capture images of vehicle parts
 - Email TPMS reports
 - Storage: 12GB
- TPMS diagnostics
 - Retrieve DTCs
 - ID Match (compare sensor IDs to what is on the ECU)
- Tire management
 - Record DOT codes (date and place of tire manufacture)
 - Change tire pressure placard value
 - Measure tire tread depth*
- Vehicle databases: Australasia, Europe, Japan and North America
- OBDII port locations
- OBDII connector included

P/N: 72-21-611

ATEQ VT57 & Hamaton H57

- 4.3" colour touchscreen
- Update via Wi-Fi
- Customer management
 - Store up to 800 service records
- TPMS diagnostics
 - Retrieve DTCs
- Tire management
 - Record DOT codes (date and place of tire manufacture)
 - Change tire pressure placard value
 - Measure tire tread depth*
- Vehicle databases: Australasia, Europe, Japan, Korea and North America
- OBDII port locations
- OBDII module and connector included

P/N: 72-21-606

P/N: 72-21-620

*Gauge sold separately.

ATEQ VT37

- 2.8" colour display
- Vehicle databases: Australasia, Europe, Eurasia and North America

P/N: 72-21-604

Hamaton Hybrid HT

- 2.8" colour display
- Update via Wi-Fi
- Customer management
 - o Store up to 800 service records
- TPMS diagnostics
 - o ID Match (compare sensor IDs to what is on the ECU)
- Tire management
 - o Change tire pressure placard value
 - o Measure **tire tread depth***
- Vehicle databases: Australasia, Europe, Eurasia and North America
- OBDII connector included

Hamaton H47

- 2.8" colour display
- Tire management
 - o Change tire pressure placard value
- Vehicle databases: Europe, Eurasia and North America
- OBDII connector included

P/N: 72-20-680

Tire Tread Depth Gauge

This ergonomic tool accessory quickly captures three precise measurements (inner, centre and outer) of up to seven tires per vehicle.

Besides improved road safety, identifying a worn tire enables garages to upsell a replacement.

For the following diagnostic tools: VT67, VT57, H57 and Hybrid HT.

P/N: [72-20-632](#)

Universal Sensor Upgrade

Increase the universal sensor coverage of your Hamaton diagnostic tool to include the following brands: ATEC alpha.Sens, ALCAR Sensor, ALLIGATOR Sens.it, BH SENS IntelliSens, VDO REDI-Sensor and SCHRADER EZ-sensor.

For the following diagnostic tools: H57* and Hybrid HT.

*If users upgrade the sensor coverage, the subscription period will revert to the remaining time offered with the equivalent ATEQ tool.

Software Updates

Having a valid software subscription and keeping diagnostic tools updated is essential. Software updates provide new features and increased coverage meaning garages can service more vehicles.

If your software licence has expired or is ending soon, contact us to discuss your options.

Install WebVT to download the latest software update. VT67, VT57, H57 and Hybrid HT owners can perform subsequent updates via Wi-Fi.

Online Shop & Support

On our website, visitors will find answers to the most asked questions surrounding TPMS and a [downloads](#) page, including how-to guides and product comparison charts.

Unlock Exclusive TPMS Info Plus Much More with Just a Login

Besides up-to-date coverage of our TPMS product range, users can take advantage of step-by-step relearn procedures for countless vehicles. This industry-leading data will be a blessing to anyone fitting a new sensor and help ensure the vehicle's TPMS is in good working order.

A 24/7 Service

Our online shop allows users to place an order whenever is convenient for them. Users will also gain access to (account specific) live pricing and their purchase history.

Let's Stay Connected

Follow our social media channels and be among the first to hear about the latest business and product news.

Are you looking to expand your knowledge of TPMS? Make sure you subscribe to the TECH Europe YouTube channel for regular tutorials.
